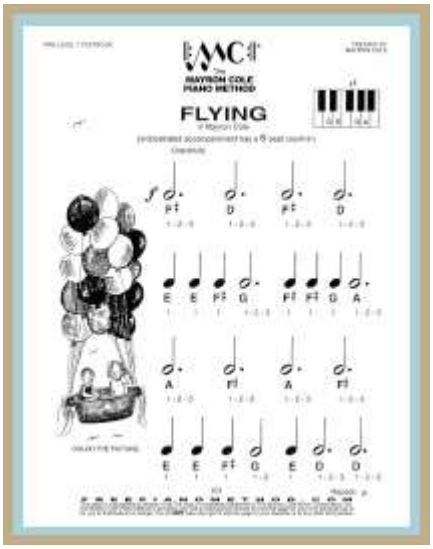
The MAYRON COLE PIANO METHOD

Pre-Level 1 Textbook

for beginners in kindergarten

Pre-Level 1, a beginner piano book, teaches how to count rhythm, all of the keys on the piano, sharps, flats, and piano-forte dynamics.

Our pre-staff reading books do not teach fingering numbers for a specific reason: Students should learn to play on the entire keyboard without becoming dependent on finger numbers; finger numbers are taught after staff-note reading is introduced in Level 1.



20 lessons
132 pages
32 original solos
5 five-piano ensembles
64 corresponding theory sheets
17 supplemental theory fun sheets
107 original drawings
