

AthLEAN-X STRIPPED

Workouts WEEKS 9-11

“THE RULES OF THE GAME”

Be sure to follow the following rules when performing the workouts for WEEKS 9-11 of the **AthLEAN-X** Training System

- ★ When choosing how much weight to use, be sure to use an amount of weight that allows you to complete the prescribed number of reps in good form. You should find the last repetition of the set to require nearly maximum effort to complete.
- ★ If the last repetition is too easy and you find that you can complete at least 2 or 3 more, increase the load on all subsequent sets.
- ★ Perform 1 set of each exercise in the “pair” without resting in between. This is one set. Perform all sets for the pair before moving onto the next pair in the workout.
- ★ If a pair has exercise a and b, perform exercise a then b without resting in between. When complete...return to a then b again for the prescribed number of sets for that circuit.
- ★ Rest time between “pairs” in these 3 weeks of workouts is 60 seconds. Keep core exercises rest time to virtually zero. Perform all core exercises as one giant set and repeat.
- ★ Repetition cadence should be 1-2 seconds on the concentric, slight pause, and then 3 seconds on the eccentric portion.
- ★ Perform all conditioning drills with the best footwork, effort, and determination you can for best results.

AND LAST BUT NOT LEAST....

- ★ *As Bill Gates once said, “If I had some set idea of a finish line, don’t you think I would have crossed it years ago?” – Don’t let this be your finish line...just another step along the way to totally transforming your body to its ultimate potential!*
