

**GOLD MEDAL BODIES**  
Parallettes Two - Getting Started

# READY TO ROCK THE PARALLETTES?

Congratulations and welcome to

## Gold Medal Bodies Parallettes Two!

We know you're excited and ready to get moving ASAP. Here's how you can get the most out of this course:

- ★ Firstly, please read the manual. We included it for a reason: you need it! Skim over it the first time as you watch through the tutorial videos and then make sure to read the details before you begin the workouts.
- ★ We've tried only to include the theory you absolutely need in this book, so it's not nearly as long as it could have been. Understanding this material will mean the difference between just seeing the demonstrations on the tutorial videos and really understanding how to practice the exercises. **Simply: Understanding this small amount of parallette training theory will ensure that you get the results you want.**
- ★ Please refer to the following checklist to ensure that you have all of the files you need. You should have both exercise demonstrations and instruction, and workouts and flow routines. You'll also find a program outline in the manual and full charts of the entire program in the Parallettes Two Program Charts.

- ★ If you have questions or concerns, **READ THE MANUAL!** The answers to most questions are included in the text, so please make sure to read it again (you might even learn something!) before sending us an email. We also recommend re-reading the manual and watching the exercise instruction at least once per training phase (roughly once or twice a month) to refresh your memory; you'll also understand the performance points better with each return to the text.

If you follow these guidelines, we're sure you'll be pleased with your progress on Parallettes Two.

So go ahead and grab yourself a cold beverage, fire up your video player, and sit back to read over the information herein. Here's to skill and strength!

# CHECKLIST

## Getting Started

You are about to enter a new regimen of practice that will change the way you think about working out forever. BUT FIRST - here's a checklist to ensure that you have everything you need to get started.

### Step 1: Access Your Account
