TIPS	A good minimum daily water recommendation is one half your bodyweight in ounces. For example, 180 pound guy should drink 90 oz. or more	Carbs are not the enemy! Don't treat them as such. In fact, they will help you power through your workouts for serious muscle gains!	Frequent meals is crucial for steadying the metabolism and turning your body into a fat burning furnace	Avoid the alcohol if possible. One night of heavy drinking is enough to erase the efforts of one week of intense weight training!	Fats slow down digestion. Not a good idea to include them in your post workout meal, when quick absorption is key!	All fruit is not created equal. Avoid dried fruit whenever you can have the fresh ver- sion. Dried fruits are loaded with sugars, calories, and unhealthy nitrates	Ounce for ounce, almonds have by far the most proteir of any of the nutsby almo two times its nearest com- petitor!

IF YOU WANT TO LOOK LIKE AN ATHLETE YOU'VE GOT TO TRAIN LIKE AN ATHLETE A

TIPS	Chestnuts are the only low-fat nut, with just one gram of fat and 70 calories per ounce	Macadamia Nuts are the highest on the other hand, with 19 grams of fat and 199 calories per ounce!	Pears are the least likely fruit to cause an allergy! Most babies start with pears for just this reason. At just 100 caloriesit's ideal for you as well	If you must, the Miller Genuine Draft Lite (MGD 64) is the lowest calorie, best tasting beer rated in a recent survey of beer drinkers	Are you or your children gamers? If so, take advantage of the Wii Boxing's ability to burn 110 calories every 15 minutes!	It is recommended that you keep your daily sodium intake under 2300 mg. How much is that? Just 1 teaspoon!	A measly serving of large French Fries from McDonalds will cost you 570 calories and 30 grams of saturated fat!

4	Fast food restaurants use the colors yellow, red and orange, because those are the colors that stimulate the appetitie the most	Try to get 30-40 grams of fiber each day. Not only does it slow down food absorption (and therefore control blood sugar) but it will ramp up the metabolism	Milk loses 80% of its riboflavin and other vitamins with just 30 minutes of light exposure! Buy your milk in the opaque plastic bottles	There is three times as much caffeine in a cup of coffee as there is in one red bull! Clever marketing for red bull would have you believe otherwise	Just a 3% decline in body hydration can cause a 10% decrease in strength and 8% decrease in speed!	Yet another reason to eat whole food instead of pro- cessed. In the USA it costs 200 times more for a pound of potato chips than a pound of potatoes	Don't worry about eating the dye on your Grade A meat. It's actually edible and made from grape skins!

TIPS	If you get indigestion don't take an antacid. You can neutralize the acids with some raw vegetables (like carrots) without the side effects	Add the spicy stuff freely! Did you know that tabasco, chili powder, hot sauces, etc. all increase the metabo- lism as they crank up body temp?	Omega 3's are essential to a healthy diet and joints. 1-2 grams a day of a high concentration EPA/DHA (1200 mg is best) is vital	Clams are extremely high in Vitamin-B12! With none of the cholesterol of shrimp, these shellfish are nutritional powerhouses!	Egg whites cook great in a microwave! Put 5 in a glass bowl, mix with spices and salsa and microwave on high for 4 minutes!	Pop your popcorn with just 1/4 tbsp of olive oil to prevent sticking (only 30 calories) and then mix with your spices or sweeteners!	Meal replacement drinks are best taken within 1 hour after your workout. Take the Progradestrength Lean during this time for max benefits!
