The MAYRON COLE PIANO METHOD

Toy Shop Christmas Operetta

Two mischievous children decide to spend Christmas Eve night in a toy shop so they can play with all of the toys, but their ploy is disrupted when the toys come alive and begin asking the children about the meaning of Christmas. You'll love the beautiful ensemble arrangement of Silent Night. The sheet music is arranged for Levels 2-4, but students of all levels will enjoy participating in this presentation. Costume suggestions and stage directions are included; little scenery needed; 45 minutes presentation time. Can be performed as an in-class recital (no stage required).
